

## Gauteng Region

Our Care homes, associations and professionals

Please note:

- 1) An important question to ask, at interview stage, is whether the home is equipped to cope regardless of any changes that may occur in the resident's behaviour.
- 2) Repeatedly moving the person is to be avoided. Some places can't keep people who become disruptive, so it's a good idea to get the reassurance of a commitment to long-term care.
- 3) Dementia care is specialised care. It's important that the care staff have attended an Alzheimers SA course in caring for the person with Dementia.
- 4) We urge you to visit the home in person as Alzheimers SA cannot be held responsible for the day to day running of all its affiliated members. Please see our checklist for choosing a suitable home.
