MULTI-PROFESSIONAL DIAGNOSTIC & ASSESSMENT CLINIC

**Walmer Port Elizabeth, Parish Centre, St John The Baptist Church,
12:00 to 14:00 the last Tuesday & Wednesday of the month**

The person with dementia and his/her family need to consult with Dr Heather Rauch (Social Worker) before attending the clinic. During the consultation Dr Rauch will gather background information on the psycho-social circumstances and screen the person.

The clinic is run by multi-professional teams. The teams provide diagnostic, assessment and supportive services. The teams, with the participation of the person and family, determine what care plan will be in the best interest of the person. Follow-up sessions are scheduled at six-month intervals to evaluate the progress and impact of the condition on the person and their changing needs. The social worker offers ongoing support to the person with dementia and their family; and liaises with the multi-professional team.

Please note that **bookings are essential**, the costs R120 – R350 per visit. **Payments must be made at the clinic.**

For more information, contact Dr Rauch 041-5815300 / 082 657 0536 / easterncape@alzheimers.org.za
